This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTRODUCTION.

THE following MERCANTILE TABLES, are offered to the Public, as a useful reference, not doubting, but they may answer the purpose of much more voluminous works.

Calculations of Discounts.

At the head of the Work, will be found CALCULATIONS of DISCOUNTS, advancing from ½ to 1, 1¼, 1½, 2, 2½, 3, 3½, 3¾, 4 to 5 per Cent.; from 5 per Cent. progressively, by 1¼ advance to 20 per Cent.; and, from 20 per Cent. progressively by 2½ advance, to 50 per Cent. which includes all the rates of Discount in general use.

The first, or amount column, from Half to Five per Cent. will be found to advance by 6*d.* progressively, to £1; and from £1, by 5*s.* advance progressively, to £20. From 5 per Cent. upwards, the advance will be found progressively by 3*d.* to £1.

The advantage of this is obvious, for in other works of this kind, where the amount advances from 1*s.* to £1. and from £1 to £20, without taking the fractional parts of shillings and pounds, to find the Discount on 5*s.* 3*d.* 5*s.* 6*d.* 5*s.* 9*d.* or such like sums, would require a double reference, which, in this work, may be found by a single one. Or, suppose the Discount on £16 15*s.* 9*d.* or such like sums, is wanted,—by these Tables, two references are only required, where, in other works, three would be necessary.

EXAMPLE.

Discount, 22½ per Cent. on £16 15*s.* 9*d.*

First, look for	£16 0*s.* 0*d.*——is	£3 12*s.* 0*d.*
Then, for	£ 0 15 9——is	£0 3 6½.
	£16 15*s.* 9*d.* Amt.	£3 15*s.* 6½*d.* Disct.

Another great disadvantage in making a number of extracts, is, the loss of fractions, and the delay occasioned.

Digitized by Google

If the Discount on any intermediate sums, such as 15*s.* 7*d.* 15*s.* 8*d.*, &c. is wanted, the difference will be easily found, by dividing the Discount between 15*s.* 6*d.* and 15*s.* 9*d.*; by this means, the object will be attained without the loss of a farthing.

Tables of Profit and Loss.

The nature and operation of Discounts, are so materially interesting to the Mercantile Community, that unless they are perfectly understood, very serious losses may be the consequence. The intention of the Profit and Loss Tables, is to shew the difference between the various rates of Discount laid on and taken off.—The first, or left hand column, will be found to commence at an equal rate of Discount with the middle column, and then to advance progressively by 2½ per Cent. through the page, while the middle column remains stationary; therefore, the best mode of reference will be, whatever rate of Discount a person is accustomed to allow, to trace down the middle column,—on the right will be seen the real profit, and on the left, the per Centage necessary to lay on, to cover the said profit, and the Discount allowed.

For instance, if I wish to allow 10 per Cent. and gain 12½, I must lay on 25 per Cent. *(See page 44)* or thus:—

	£	*s.*	*d.*
Nett Cost Price of Goods,	100	0	0
Profit laid on, 25 per Cent.	25	0	0
10)	125	0	0
Discount allowed, 10 per Cent.	12	10	0
Real Profit and Principal,	112	10	0

Again, we shall suppose, a Manufacturer brings a new article to market, on which is laid a profit of 30 per Cent.; a second brings the same article, but allows 2½ per Cent. The first, in order to support his sales, allows an additional 2½, thus, by competition, a regular reduction of 2½ is made, until it reaches 25, they now consider the profits reduced to 5 per Cent. but, on examination of Profit and Loss Tables, *(page 50)* it will be found, that, "To lay on 30 per Cent. and take off 25, is Loss, £2 10*s.* 0*d.*;" therefore, not only the 30 per Cent.

Digitized by Google

profit is given up, but a sacrifice of 2*l.* 10*s.* of the principal. Manufacturers are sometimes tempted, by an extensive purchase and prompt payment, to allow an extra 2½ per Cent., it is, therefore, essentially necessary, to know how the extra 2½ affects the profit, when the Discounts allowed are at a high rate. We shall suppose the regular Discount allowed, to be 25 per Cent. the extra 2½, therefore, will augment it to 27½. I now refer to Profit and Loss Tables (*pages* 50 and 51) and I find to lay on 50 per Cent. and take off 25, is profit, £12 10*s. per Cent.*; then, to lay on 50 per Cent. & take off 27½, is profit, £8 15*s. per Cent.* In this case, the first profit is reduced £3 15*s.* per Cent. although only 2½ extra has been allowed; but, where the Discounts are at a much higher rate, the diminution of the profits will be found much more considerable.

The arrangement of these Tables being entirely new, and differing from any hitherto published, the Author hopes his prolixity on the subject, will be excused, it being his wish to make them intelligible to every capacity.

Tables of Commission, or Brokerage.

These Tables are calculated at the common rates, from ⅛ to 5 per Cent. advancing in the ratio of £1 to £100, and from thence to £5000.

Tables of Wages, Income or Expences,

Shewing what any Sum, from £1 to £3000, is per month, week or day.

Tables of Interest, at Five per Cent.

From One, to One Hundred Days, and from One to Twelve Months.

Tables for Calculating Interest, from Half to 4½ per Cent.

A Table, shewing the Compound Interest on Sums annually reserved, from One to Forty Years.

Refer to the 5 per Cent. Tables, for the Sum required, then, for

½ per Cent.	divide such Interest by 10.
1	divide by 5.
1½	multiply by 3, and divide the product by 10.
2	multiply by 2, and divide by 5.
2½	divide by 2.
3	multiply by 3, and divide by 5.
3½	multiply by 7, and divide by 10.
4	multiply by 4, and divide by 5.
4½	multiply by 9, and divide by 10.

EXAMPLE.

Suppose the Interest of £100, for 4 Months, at 3 per Cent. is required.

	£	s.	d.
